

IMechE Journals published by SAGE

Institution of
**MECHANICAL
ENGINEERS**

IMECHE JOURNALS COLLECTION

SAGE now publishes 18 prestigious titles from the **Institution of Mechanical Engineers**. These include the 16-part Proceedings of the IMechE, as well as **The Journal of Strain Analysis for Engineering Design** and the **International Journal of Engine Research**.

Spanning from Power and Energy to Sports Engineering and Technology, these journals are an essential part of any engineering collection.

INCLUDED IN THE IMECHE JOURNALS COLLECTION ARE:

Journal Titles

International Journal of Engine Research ISSN: 2041-3149
The Journal of Strain Analysis for Engineering Design ISSN: 2041-3130

Proceedings of the Institution of Mechanical Engineers:

Part A: Journal of Power and Energy	ISSN: 0957-6509
Part B: Journal of Engineering Manufacture	ISSN: 0954-4054
Part C: Journal of Mechanical Engineering Science	ISSN: 0954-4062
Part D: Journal of Automobile Engineering	ISSN: 0954-4070
Part E: Journal of Process Mechanical Engineering	ISSN: 0954-4089
Part F: Journal of Rail and Rapid Transit	ISSN: 0954-4097
Part G: Journal of Aerospace Engineering	ISSN: 0954-4100
Part H: Journal of Engineering in Medicine	ISSN: 0954-4119
Part I: Journal of Systems and Control Engineering	ISSN: 0959-6518
Part J: Journal of Engineering Tribology	ISSN: 1350-6501
Part K: Journal of Multi-body Dynamics	ISSN: 1464-4193
Part L: Journal of Materials: Design and Applications	ISSN: 1464-4207
Part M: Journal of Engineering for the Maritime Environment	ISSN: 1475-0902
Part N: Journal of Nanoengineering and Nanosystems	ISSN: 1740-3499
Part O: Journal of Risk and Reliability	ISSN: 1748-006X
Part P: Journal of Sports Engineering and Technology	ISSN: 1754-3371

BENEFITS OF SUBSCRIBING

- **Easy access:** the journals are available online on the award-winning SAGE Journals platform
- **Broad coverage:** consistent year-on-year growth of published content, including approximately 1,500 new articles annually
- **Accessibility:** 17 of the 18 titles are included in the Thomson Reuters Journal Citation Reports®, and all of them are indexed in SCOPUS
- **Timely publication process:** peer-review is fast, efficient, and overseen by our dedicated in house team, so you can be sure you're getting the most recent research as soon as possible
- **Coverage of global topics:** 70% of papers published in the IMechE Collection have come from outside the UK in 2013
- **High impact research:** there have been over 55,000 citations to collection articles

Complete your mechanical engineering content collection. No research can be complete without access to all possible information; owning the IMechE Archive provides comprehensive resources for a full literature review in mechanical engineering.

The **IMECHE Archive: 1847–1998** gives you direct access to over **200,000 pages of unique material**, including technical papers, obituaries, works visits, meeting reports, technical drawings, and editorial comment, all covering some of the most influential and innovative years of engineering development.

Highly relevant content – over 15,000 articles between 1989 and 2013 cited Archive papers

Papers date back to the inception of the Institution of Mechanical Engineers and include **key content from leading engineers**, conferences and the Institution of Locomotive Engineers:

- 'On the fallacies of the rotary engine' – George Stephenson, 1848
- 'The early history of the Whittle jet propulsion gas turbine' – Frank Whittle, 1945
- 'The possibilities of nuclear energy for heat and power production' – John Douglas Cockcroft, 1947

IMECHE Shallow Backfile Package

This content ownership opportunity will complete your collection of IMechE content, offering articles published between 1999 to 2009. The package will include many of benefits of the IMechE Archive, including access via the award-winning SJ platform and the highest quality content that is ranked in the 2011 Thomson Reuters Journal Citation Reports®. Complete your ownership of IMechE backfile content today!
